

Ventura County Transportation Commission

Disadvantaged Business Enterprise Overall Goal and Goal Setting Methodology

Federal Fiscal Years 2015/16 – 2017/18

I. Introduction

The United States Department of Transportation (USDOT) requires recipients of USDOT funds to establish triennial DBE goals to ensure that small disadvantaged business enterprises (DBE) can compete fairly for federally funded transportation-related projects. As a recipient of USDOT transit funds, the Ventura County Transportation Commission (VCTC) is required to develop triennial DBE goals for contracts let out by VCTC and its sub-recipients: City of Camarillo, City of Ojai, City of Oxnard, City of Thousand Oaks and the Area Agency on Aging. This report describes the overall goal and goal setting methodology established for federal transit contracts funded through the Federal Transit Administration (FTA) that are awarded by VCTC and sub-recipients in federal fiscal years (FFYs) 2015/16, 2016/17 and 2017/18.

USDOT has established a two-step process to assist funding recipients to calculate the DBE goal¹. Step one of the goal setting process is to determine a measurement of the actual relative availability of DBEs to perform the types of contracts that VCTC and its sub-recipients intend to let. In other words, the analysis is an attempt to determine what percentage of DBEs represent all firms that are ready, willing and able to compete for DOT-assisted contracting. Step Two of the goal setting calculation process is intended to adjust the base figure calculated in Step One to make it as precise as possible. Under the rule, all evidence available should be used to determine whether such an adjustment is necessary. If the evidence does not suggest such an adjustment is necessary, then no adjustment should be made.

This report serves as an update to the overall DBE goal and goal setting process for FFY 2015/16 – 2017/18 adopted by VCTC on June 5, 2015. The information in this report, therefore, supersedes the information included in the previous report adopted by VCTC.

II. DBE Goal for FFY 2015/16 – 2017/18

The proposed overall DBE Goal for FFYs 2015/16 – 2017/18 is 11.7%. The goal applies to FTA-funded contracts awarded by VCTC and its sub-recipients from October 1, 2015 through September 30, 2018. The analysis described in section V indicates the proposed

¹ US Department of Transportation, Tips for Goal-Setting in the Disadvantaged Business Enterprise (DBE) Program, Updated December 22, 2014. <https://www.transportation.gov/osdbu/disadvantaged-business-enterprise/tips-goal-setting-disadvantaged-business-enterprise>

goal of 11.7% can be achieved entirely through race- and gender-neutral measures. In accordance with the decision by the US Court of Appeals for the Ninth Circuit in *Western States Paving Company v. United States and Washington State Department of Transportation*, USDOT recipients in the Ninth Circuit which includes California cannot consider the use of a race- or gender-conscious goal unless a finding of statistically significant disparity (disparity study) has been made for the ethnic and gender groups to be included in the race- or gender-conscious goal. VCTC has not conducted a disparity study and, therefore, did not consider the use of a race- or gender-conscious goal as part of the overall goal. However, based on the results of the analysis described in sections IV and V of this report, VCTC believes it can achieve the base goal figure calculated in Step One entirely through race- and gender-neutral measures. A summary of disparity studies conducted by Caltrans and the Los Angeles County Metropolitan Transportation Authority is provided in section V of this report.

III. DBE Goal Setting Methodology

As noted in section 1 (Introduction), the DBE goal was calculated using the two-step process described in the “Tips for Goal Setting” guidance provided by USDOT. The two-step process for calculating the overall DBE goal is to:

Step 1: Calculate a base figure to determine the relative availability of DBEs;

Step 2: Adjust the base figure if necessary.

The DBE Directory and Census Data method was used to calculate the base figure of the relative availability of DBEs to perform the types of contracts that VCTC and its sub-recipients intend to let. A detailed description of the methodology used in Step One and associated calculations and assumptions are provided in section IV. In Step Two, past DBE participation and an analysis of bidders (contractors and sub-contractors) and projects from previous years in relation to projects proposed in FFY 2015/16 – 2017/18 was utilized to determine if the base figure should be adjusted. A description of this analysis conducted for Step Two is provided in section V.

Determination of Local Market Area

The boundaries of the local market area were determined by examining the area in which the substantial majority of the contractors and subcontractors that submitted bids and were awarded contracts in past years are located. The location of bidders and firms awarded competitive contracts for the four-year period between FFYs 2011/12 through 2014/15 was used to determine the local market area. Because 84% of the bidders and 79% of firms awarded contracts were geographically located in Ventura and Los Angeles Counties, it was determined that the local market area is Ventura and Los Angeles counties. A summary of the location of bidders is provided in Exhibit 1, and the location of firms awarded contracts is provided in Exhibit 2. The names and location of bidders and firms awarded contracts is provided in Attachment 1.

IV. Step One Base Figure Calculation

The purpose of Step One is to determine what percentage of DBEs represent all firms that are ready, willing, and able to compete for USDOT-assisted contracting. This percentage is calculated by dividing the number of DBEs ready, willing and able to bid for the types of work to be funded during a three-year period, by the number of all firms (DBEs and non-DBEs) ready, willing and able to bid for the types of work to be funded during the same three-year period. The calculation is summarized in the equation below:

$$\text{Step One Base Figure} = \frac{\text{Ready, willing, and able DBEs}}{\text{All firms ready, willing, and able (including DBEs and non-DBEs)}}$$

To complete the calculation, the first item of work was to develop a list of contracts that VCTC and its sub-recipients intend to let in FFYs 2015/16 – 2017/18. This list of anticipated projects/contracts is provided in Exhibit 3. A total of 13 anticipated contracts were identified that total \$4.3 million.

North American Industry Classification System (NAICS) codes were assigned to each project to help identify DBEs and all firms that are ready, willing and able to compete for the anticipated projects as presented in Exhibit 4 on the following page. NAICS codes were obtained from the US Census Bureau web page located at: <http://www.census.gov/eos/www/naics/>.

| Total | | | \$4,276,025 |

The DBE firms that are ready, willing and able to perform the anticipated work were identified using the California Unified Certification Program (CUCP) Statewide DBE Directory. DBE firms that indicated their willingness to work in Caltrans District 7 (Ventura and Los Angeles Counties) were selected as ready, willing and able DBEs. NAICS codes and Work codes were used to identify DBE firms that are aligned with the scope of work of the anticipated contracts. The list of DBE firms is provided in Attachment 2 – DBE Directory. Only 4 suspended DBE firms were removed from the list as noted in Attachment B.

The number of all firms ready, willing and able to perform the anticipated contracts was obtained from the US Census Bureau Geographic Area Series: County Business Patterns for Ventura County and Los Angeles County by NAICS code. The output from this search is provided in Attachment 3.

The result of the Step One Base Figure calculation is 12.8 percent as presented in Exhibit 6.

USDOT recommends that weighting be used to help ensure that the Step One Base Figure is as accurate as possible. Weighting slightly reduces the Base Figure from 12.8% to 11.7% as presented in Exhibit 7 on the following page.

V. Step Two Base Figure Adjustment

The purpose for Step Two of the goal setting calculation is to adjust the Step One figure to make it more precise if necessary. The factors listed below were considered to determine whether such an adjustment is necessary:

- Past DBE participation;
- Bidder's List and DBE participation in past contracts;
- Disparity studies conducted in the local market area.

Past DBE Participation

The DBE goals achieved in the previous three federal fiscal years were examined to determine the median DBE participation. The DBE goals achieved in the past three fiscal years are:

FFY 2012/13 = 0.1%

FFY 2013/14 = 12.5%

FFY 2014/15 = 4.8%

Median = 4.8%

The median DBE participation for the previous three-year period is 4.8%. However, as explained in the "Bidder's List and DBE participation in past contracts" paragraph below, the type of contracts anticipated in FFYs 2015/16 – 2017/18 is expected to include higher DBE participation from sub-contractors based on past projects bids.

Bidder's List and DBE Participation in Past Contracts

When comparing bids from previous projects that are comparable to the anticipated projects proposed for FFYs 2015/16 – FFY 2017/18, it is possible that the weighted base figure calculated in Step One can be achieved through race- and gender-neutral measures. For example, bus shelter projects in past years included DBE participation ranging between 0% to 24%, with the mode at 6.4% based on the use of sub-contractors. Three bus shelters projects are anticipated during the FFYs 2015/16 – FFY 2017/18 period. In addition, projects equivalent to projects listed under NAICS code 334220 included 9.5% DBE participation from suppliers in past years. There is also the potential for 100% DBE participation for transit operating and management consulting services from firms that have produced good work product similar to projects proposed during the FFYs 2015/16 – FFY 2017/18 period.

Disparity Studies Conducted in the Local Market Area

The Los Angeles County Metropolitan Transportation Authority (Metro) conducted a disparity study in 2012 known as the Metro 2012 DBE Program Disparity Study. The study documented a disparity for African Americans, Asian-Pacific Americans, Subcontinent Asian Americans and Hispanic Americans. The study also found that Caucasian females were over utilized. In a subsequent analysis, it was determined that Caucasian females were underutilized.²

Based on the factors listed above to consider whether to adjust the Base Figure, it is determined that no adjustment should be made. Therefore, the overall goal for FFY 2015/16 – 2017/18 is proposed at 11.7% to be achieved through race-and gender-neutral measures.

VI. Public Notice and Consultation

The public notice and consultation process conducted for setting the DBE Goal for FFYs 2015/16 – 2017/18 is provided in Attachment 4.

Public Notice and Consultation

MEMO TO: MARISA APPLETON, FTA CIVIL RIGHTS OFFICER
FROM: PETER DE HAAN, VENTURA COUNTY TRANSPORTATION COMMISSION
SUBJECT: DBE GOAL SETTING CONSULTATION PROCESS

This memo is to summarize the process VCTC has followed for consultation regarding its proposed DBE goal as required by the 2016 Triennial Review DBE Corrective Action. Attachment A provides the schedule followed by VCTC's consultation process.

On April 16th, VCTC mailed the letter provided in Attachment B to the organizations listed in Attachment C. This letter notified these groups of VCTC's goal and requested consultation. Subsequently, VCTC sent to these same organizations the memo shown in Attachment D, inviting them to a meeting at VCTC's office on May 24th. VCTC received no response from its letters and no one attended the meeting on the 24th.

As summarized in Attachment E, I then attempted to make outreach phone calls to organizations that are located geographically close to VCTC. (Many of the organizations on the list are located in Los Angeles which is 60 miles away.) As stated in the log of outreach calls, all of these calls resulting in leaving voice mails, but I did receive one response from Gary Cushing, CEO of the Camarillo Chamber of Commerce, and the two of us met in his office on June 14th to review the goal calculation.

In the meeting with Mr. Cushing I walked through the method for VCTC's goal calculation and race-neutral program, emphasizing that the majority of VCTC's business consists of transit operations contracts which utilize a very limited number of vendors, but small business and DBE participation can be improved by encouraging VCTC subcontractors. Mr. Cushing felt that the goal and the calculation method were reasonable, but he suggested that VCTC's procurement solicitations be sent to his organization and to the other chambers as they will definitely circulate that information to area small businesses. I let him know that VCTC would be sure to follow his suggestion.

Subsequent to the consultation with Mr. Cushing I received on June 20th a voice mail message from Brenda Tursian of the National Association of Women Business Owners, responding to the voice mails I had left with her office. I followed up with an email on June 24th (Attachment F) and left a voice mail for her on July 11th. However, there was no further response.

Based on the limited amount of consultation that VCTC was able to obtain as a result of its numerous requests, there appear to be no grounds for revising the previously-approved DBE goal calculation, or the adopted 2016 – 2018 goal of 12.5% (see the calculation provided in Attachment G). Attachment H provides the draft notice by which VCTC is planning to re-publish the DBE goal. Please let me know if you have any comments on the process that was followed, or any direction on additional steps that need to be taken.

SAMPLE LETTER

Dear Sir/Madame:

The Ventura County Transportation Commission (VCTC) has established a Disadvantaged Business Enterprise (DBE) program in accordance with regulations of the U.S. Department of Transportation (DOT), 49 CFR Part 26. VCTC has received Federal financial assistance from the Department of Transportation, and as a condition of receiving this assistance, VCTC has signed an assurance that it will comply with 49 CFR Part 26 to ensure that DBEs have an equal opportunity to receive and participate in DOT-assisted contracts.

Every three years, VCTC is required to set an overall DBE goal that it must either meet, or show that it used good faith efforts to meet, annually. VCTC has calculated its DBE goal for Federal Fiscal Years 2016, 2017 and 2018. The proposed goal is 12.5%. VCTC used a two-step process to determine this goal as identified in the Federal Transit Administration document "Tips for Goal-Setting in the Disadvantaged Business Enterprise (DBE) Program". The two-step process creates a baseline figure for the relative availability of DBEs and then adjusts the base figure based upon additional evidence, including past experience. The methodology used to calculate the initial baseline figure and any adjustments are explained in the attached report.

As part of the DBE goal-setting process, VCTC is consulting with persons and groups to obtain information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and VCTC efforts to establish a level playing field for the participation of DBEs.

Following the consultation, VCTC will publish a notice of the proposed overall goals, informing the public that the proposed goal and its rationale are available for inspection during normal business hours at our offices for 30 days following the date of the notice, and informing the public that VCTC and DOT will accept comments on the goals for 45 days from the date of the notice.

Our overall goal submission to DOT will include a summary of information and comments received during this public participation process and our responses.

If you would like to submit written comments and/or questions, please mail them to:

Comments and questions may also be sent via email at: pdehaan@goventura.org

Public Notice and Consultation

The consultation process is scheduled to end on May 27, 2016; however, VCTC and DOT will continue to accept comments through August 1, 2016.

If you have any questions or would like to meet in person to consult with VCTC, please call Peter De Haan at (805) 642-1591, extension 106.

Sincerely,

MEMO TO: ORGANIZATIONS REPRESENTING POTENTIAL CONTRACTING PARTNERS
FROM: VENTURA COUNTY TRANSPORTATION COMMISSION (VCTC)
**SUBJECT: CONSULTATION FOR VCTC DISADVANTAGED BUSINESS ENTERPRISE /
SMALL BUSINESS ENTERPRISE PROGRAM
MEETING SCHEDULED FOR TUESDAY, MAY 24TH, AT 1:30 P.M.**

Recently you received a letter from Peter De Haan, VCTC Programming Manager, with information on how you can participate in development of VCTC's Disadvantaged Business Enterprise (DBE) goal. VCTC is very interested in meeting directly with your organization to get your suggestions for its goal. To this end, VCTC has scheduled a meeting to be held at VCTC's office to discuss how this participation goal is to be established. This important meeting will be held in the Lobby Conference Room at VCTC's office at 950 County Square Drive in Ventura, at 1:30 p.m. on Tuesday, May 24th, and your organization is strongly urged to attend.

The letter sent to you earlier also offered to schedule a meeting specifically with your organization at your convenience, and that offer still stands, but the general meeting now scheduled for May 24th hopefully provides another option for your participation in VCTC's program. It would preferable to have all these meetings wrapped up by May 27th so that VCTC can proceed with finalizing its DBE goal.

Should you have any questions, or to schedule a separate meeting, please do not hesitate to contact Peter De Haan at (805) 642-1591, extension 106. We hope to meet with you shortly.

NOTICE OF DISADVANTAGED BUSINESS ENTERPRISE (DBE) GOAL
Ventura County Transportation Commission
August 9, 2016

The Ventura County Transportation Commission (VCTC) is required under federal law to adopt a DBE plan and goal for contracting opportunities to be funded with Federal Transit Administration (FTA) funds. The proposed overall DBE goal for FTA projects is 12.5% for fiscal years 2015/16, 2016/17, and 2017/18. The goal was adopted by VCTC on June 5, 2015. VCTC has completed the required consultation process on the goal and proposes to make no change to the goal. VCTC anticipates that this goal will be met entirely through race-neutral means.

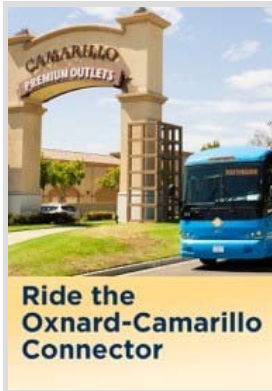

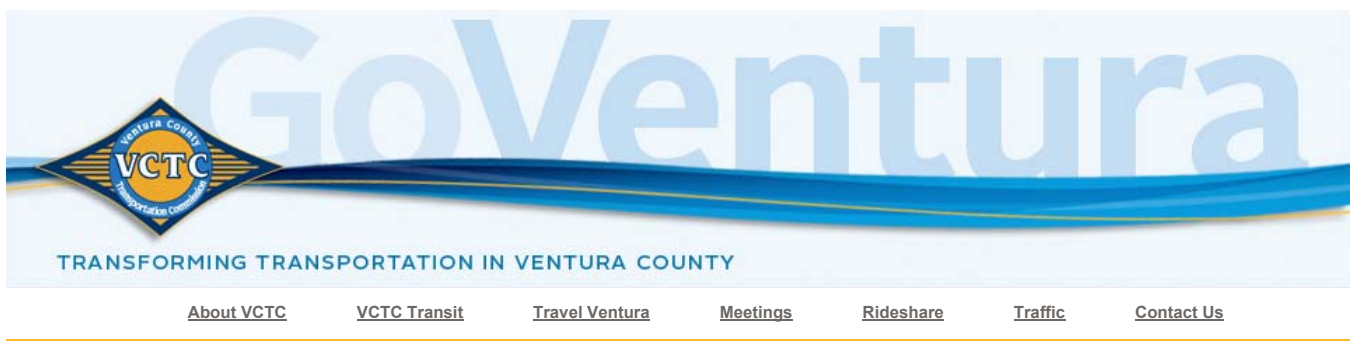

A description of how the goal was set is available for public inspection for a period of 30 days from the publication of this notice at VCTC, 950 County Square Drive, Suite 207, Ventura or call (805) 642-1591. Both VCTC and the FTA will accept comments on the goal for information purposes only for 45 days from the date of this notice.
