Hi Joe,

I just wanted to follow up with you on this. You should have received the documents in my previous email, but I have re-attached them for your reference.

Feel free to reach out to me, should you have any questions.

Thank you,

Alfred Manuel
Project Coordinator

Hi Eddie,

I was given your contact information from Victor Mendez from UPRR. I am reaching out to you because we will be having an emergency bridge repair along the Ventura County railroad line in Fillmore, CA. The bridge runs over Sespe Creek and is parallel to Old Telegraph Rd, near the Grand Ave Intersection. We are looking to locate utilities and confirm that no conflicts occur during construction. I have attached the Utilities Information Request Letter and Project Area Boundary drawing. If you would like us to physically mail you this information, please provide me that mailing address.

If possible, please complete and return the second page of the Utilities Information Request Letter and provide us any relevant drawings via email as soon as possible.

Feel free to reach out to me, should you have any questions or concerns.

Thank you,

Alfred Manuel

Re: Sespe Creek Bridge Overflow Repair, Fillmore, CA

Dear Mr. Manuel,

This is in response to your Inquiry Letter dated March 11, 2024, regarding the above referenced project. After reviewing your location maps, please be advised that AT&T Network Services (long distance) has no active facilities (Transcontinental Fiber Optics Lines) within the vicinity of this project.

Thank you for notifying AT&T of the pending project referenced above. Notification of future proposed work, performed in this vicinity should be directed to:

AT&T INQUIRIES
22311 Brookhurst Street, Suite 203
Huntington Beach, CA 92646
joef@forkertengineering.com

Should you have any questions or concerns regarding this project, please contact Mr. Joseph Forkert at (714) 963-7964 or me at your earliest convenience.

Please Note

AT&T Drawings are Proprietary Information Pursuant to Company instructions—This Office does not distribute drawings for Pre-Planning and Design Engineering purposes.

Please contact your local City, County, Utility Notification Center or AT&T on Site Plant Protection Workforce to identify AT&T facilities prior to contacting AT&T Engineering. If you are referred to our office because of a possible conflict with AT&T lines, we will confirm and provide you with the appropriate drawings and pertinent information required to avoid a conflict with AT&T lines prior to the start of your construction project.

Sincerely,

Joseph Forkert for

Sespe Creek Bridge Overflow Repair, Fillmore, CA
Facility/Utility Location Information Request

Dear Madame/Sir:

RailPros, Inc. is preparing engineering designs for emergency bridge repair Sespe Creek in Fillmore, CA at milepost 423.1 adjacent to the Old Telegraph Rd Bridge. The project site falls within Ventura County Thomas Guide map page 37, grid C3. The project limits can be found between the following coordinates: 34.406931, -118.933136 & 34.406162, -118.931633. The project will be within 50' from the centerline of the railroad track in both directions. We are in the process of identifying existing facilities/utilities that fall within the Project Area.

We request your assistance to verify the existence of facilities/utilities owned, leased, operated or maintained by your company/agency that may lie within the Project Area Boundary as shown on the enclosed 1"=80' scale drawing.

- Please review the enclosed map and response form regarding the status of your facilities/utilities in the Project Area.
- Complete and sign the response form.
- Indicate facility/utility type, size, material, location/alignment and depth of cover in red on the enclosed 1"=80' scale map
- Keep one copy of the letter and drawing for your records.
- Return one copy each of the following:
 - a) completed response form
 - b) 1"=80' drawing showing your facilities/utilities in red
 - c) As-Built drawings of your facilities/utilities

Should there be a contact person other than you handles utility location requests, please forward this letter to the correct person. Your cooperation in this matter is greatly appreciated. Do not hesitate to call me at (714) 595-2099 if you have any questions.

Sincerely yours,

Alfred Manuel

Hello Juliana & Alfred,

Reaching out in regard to this request for Charter utilities in possible conflict @ Sespe Creek City of Fillmore. Charter should not be in conflict for current emergency notification bridge repair running parallel to old telegraph Rd Concrete Road bridge in Fillmore. There currently is a significant separation from Railroad track bridge requesting repair north of existing concrete bridge.

Our existing facilities are currently running inside concrete bridge through bridge cavity on southside of concrete bridge. I have included some detailed info below. Please let me know if there are any additional questions or you would like to schedule a meeting onsite to confirm.

Thank you,

Alfred,

Arcadis manages the inactive petroleum pipelines for Chevron Environmental Management Company (DigAlert Member Code: CHEMC). Based on the available information, there are no CHEMC pipelines located within the proposed project area in Fillmore, CA. There is a CHEMC pipeline running along the northwest bound lanes of Old Telegraph Road.

Please let us know if you have any questions.

Thanks, Allen

To: Alfred Manuel:

Chevron Pipe Line Company has determined that it has no facilities inside the scope of your proposed **Emergency Railroad Bridge Repair Project in the vicinity of Old Telegraph Road and Grand Avenue, Fillmore**. If you would like further confirmation of this, utilize the USA system and a Chevron inspector will respond.

Sincerely,

A handwritten signature in blue ink that reads "Dave Zerler".

Hi Dave,

I am reaching out to you because we will be having an emergency bridge repair along the Ventura County railroad line in Fillmore, CA. The bridge runs over Sespe Creek and is parallel to Old Telegraph Rd, near the Grand Ave Intersection. We are looking to locate utilities and confirm that no conflicts occur during construction. I have attached the Utilities Information Request Letter and Project Area Boundary drawing. We also mailed a physical copy of these documents to the following address on 12/20/2023:

**6001 Bollinger Canyon Rd.
San Ramon, CA 94583**

If possible, please complete and return the second page of the Utilities Information Request Letter and provide us any relevant drawings via email or physically by mail by **February 12, 2024**.

Feel free to reach out to me, should you have any questions or concerns.

Thank you,

Alfred Manuel

Sespe Creek Bridge Overflow Repair, Fillmore, CA
Facility/Utility Location Information Request

Dear Madame/Sir:

RailPros, Inc. is preparing engineering designs for emergency bridge repair Sespe Creek in Fillmore, CA at milepost 423.1 adjacent to the Old Telegraph Rd Bridge. The project site falls within Ventura County Thomas Guide map page 37, grid C3. The project limits can be found between the following coordinates: 34.406931, -118.933136 & 34.406162, -118.931633. The project will be within 50' from the centerline of the railroad track in both directions. We are in the process of identifying existing facilities/utilities that fall within the Project Area.

We request your assistance to verify the existence of facilities/utilities owned, leased, operated or maintained by your company/agency that may lie within the Project Area Boundary as shown on the enclosed 1"=80' scale drawing.

- Please review the enclosed map and response form regarding the status of your facilities/utilities in the Project Area.
- Complete and sign the response form.
- Indicate facility/utility type, size, material, location/alignment and depth of cover in red on the enclosed 1"=80' scale map
- Keep one copy of the letter and drawing for your records.
- Return one copy each of the following:
 - a) completed response form
 - b) 1"=80' drawing showing your facilities/utilities in red
 - c) As-Built drawings of your facilities/utilities

Should there be a contact person other than you handles utility location requests, please forward this letter to the correct person. Your cooperation in this matter is greatly appreciated. Do not hesitate to call me at (714) 595-2099 if you have any questions.

Sincerely yours,

Alfred Manuel

Hi John,

We will be having an emergency bridge repair along the Ventura County railroad line in Fillmore, CA. The bridge runs over Sespe Creek and is parallel to Old Telegraph Rd, near the Grand Ave Intersection. Here is more information for the bridge:

Location: : 34.40634, -118.93197

Google maps: https://maps.app.goo.gl/PA5QwUTzy18GkeFR9?g_st=ic

I have attached the location as well as an image of the bridge area.

If you could please provide me, as-builts or maps that can help us locate any utilities to confirm that no conflicts occur with the foundation repair for the bridge columns.

Let me know if you have any further questions about the location.

Thank you,

Alfred Manuel

**Re: C08142023A - Notice of Improvement Response Letter
FIRST UTILITY NOTICE FACILITY RESEARCH AND REQUEST FOR COMMENTS FOR RAIL
PROS
EMERGENCY BRIDGE REPAIR SESPE CREEK BRIDGE, FILLMORE, CA**

Dear Alfred Manuel,

Pursuant to your request dated August 11, 2023, pertaining to the above referenced project, please be advised that Crimson Midstream, LLC maintains pipelines within the vicinity of your proposed project. We are prepared to mark our facilities upon receiving 48-hour advanced Underground Service Alert (USA) notice.

Enclosed for your information are drawings that depict the general alignment of our pipelines. Upon completion of your final project drawings, please provide us a detailed set of your plans for our review to determine if there is a conflict with any of our existing facilities.

Crimson requires a representative to be on site during any construction activities within the vicinity of our facilities. Therefore, you or your contractors are hereby notified to contact, in addition to the above referenced USA notice, Crimson's designated representative, John Neal cell: 805-832-8558, between the hours of 6:30 A.M. and 5:00 P.M., Monday through Friday, a minimum of 48 hours in advance of commencing said construction activities.

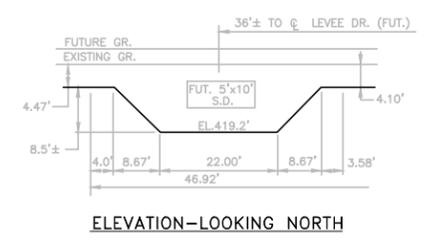

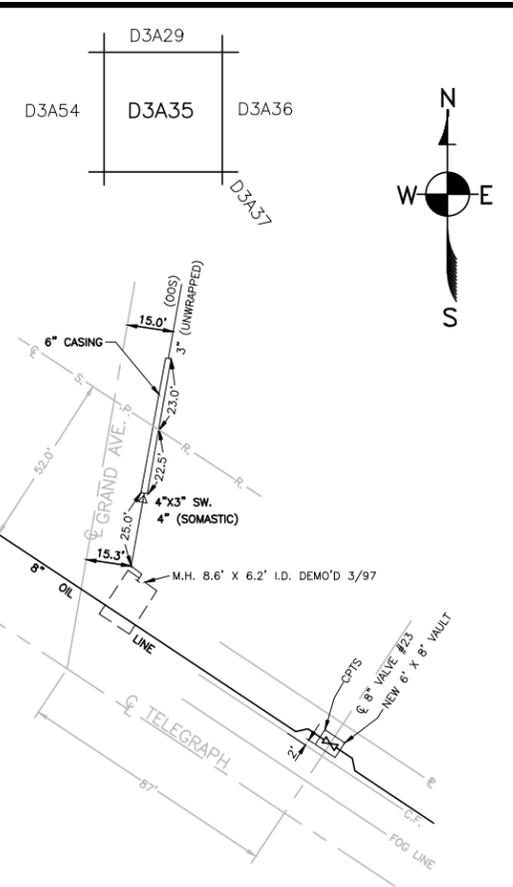

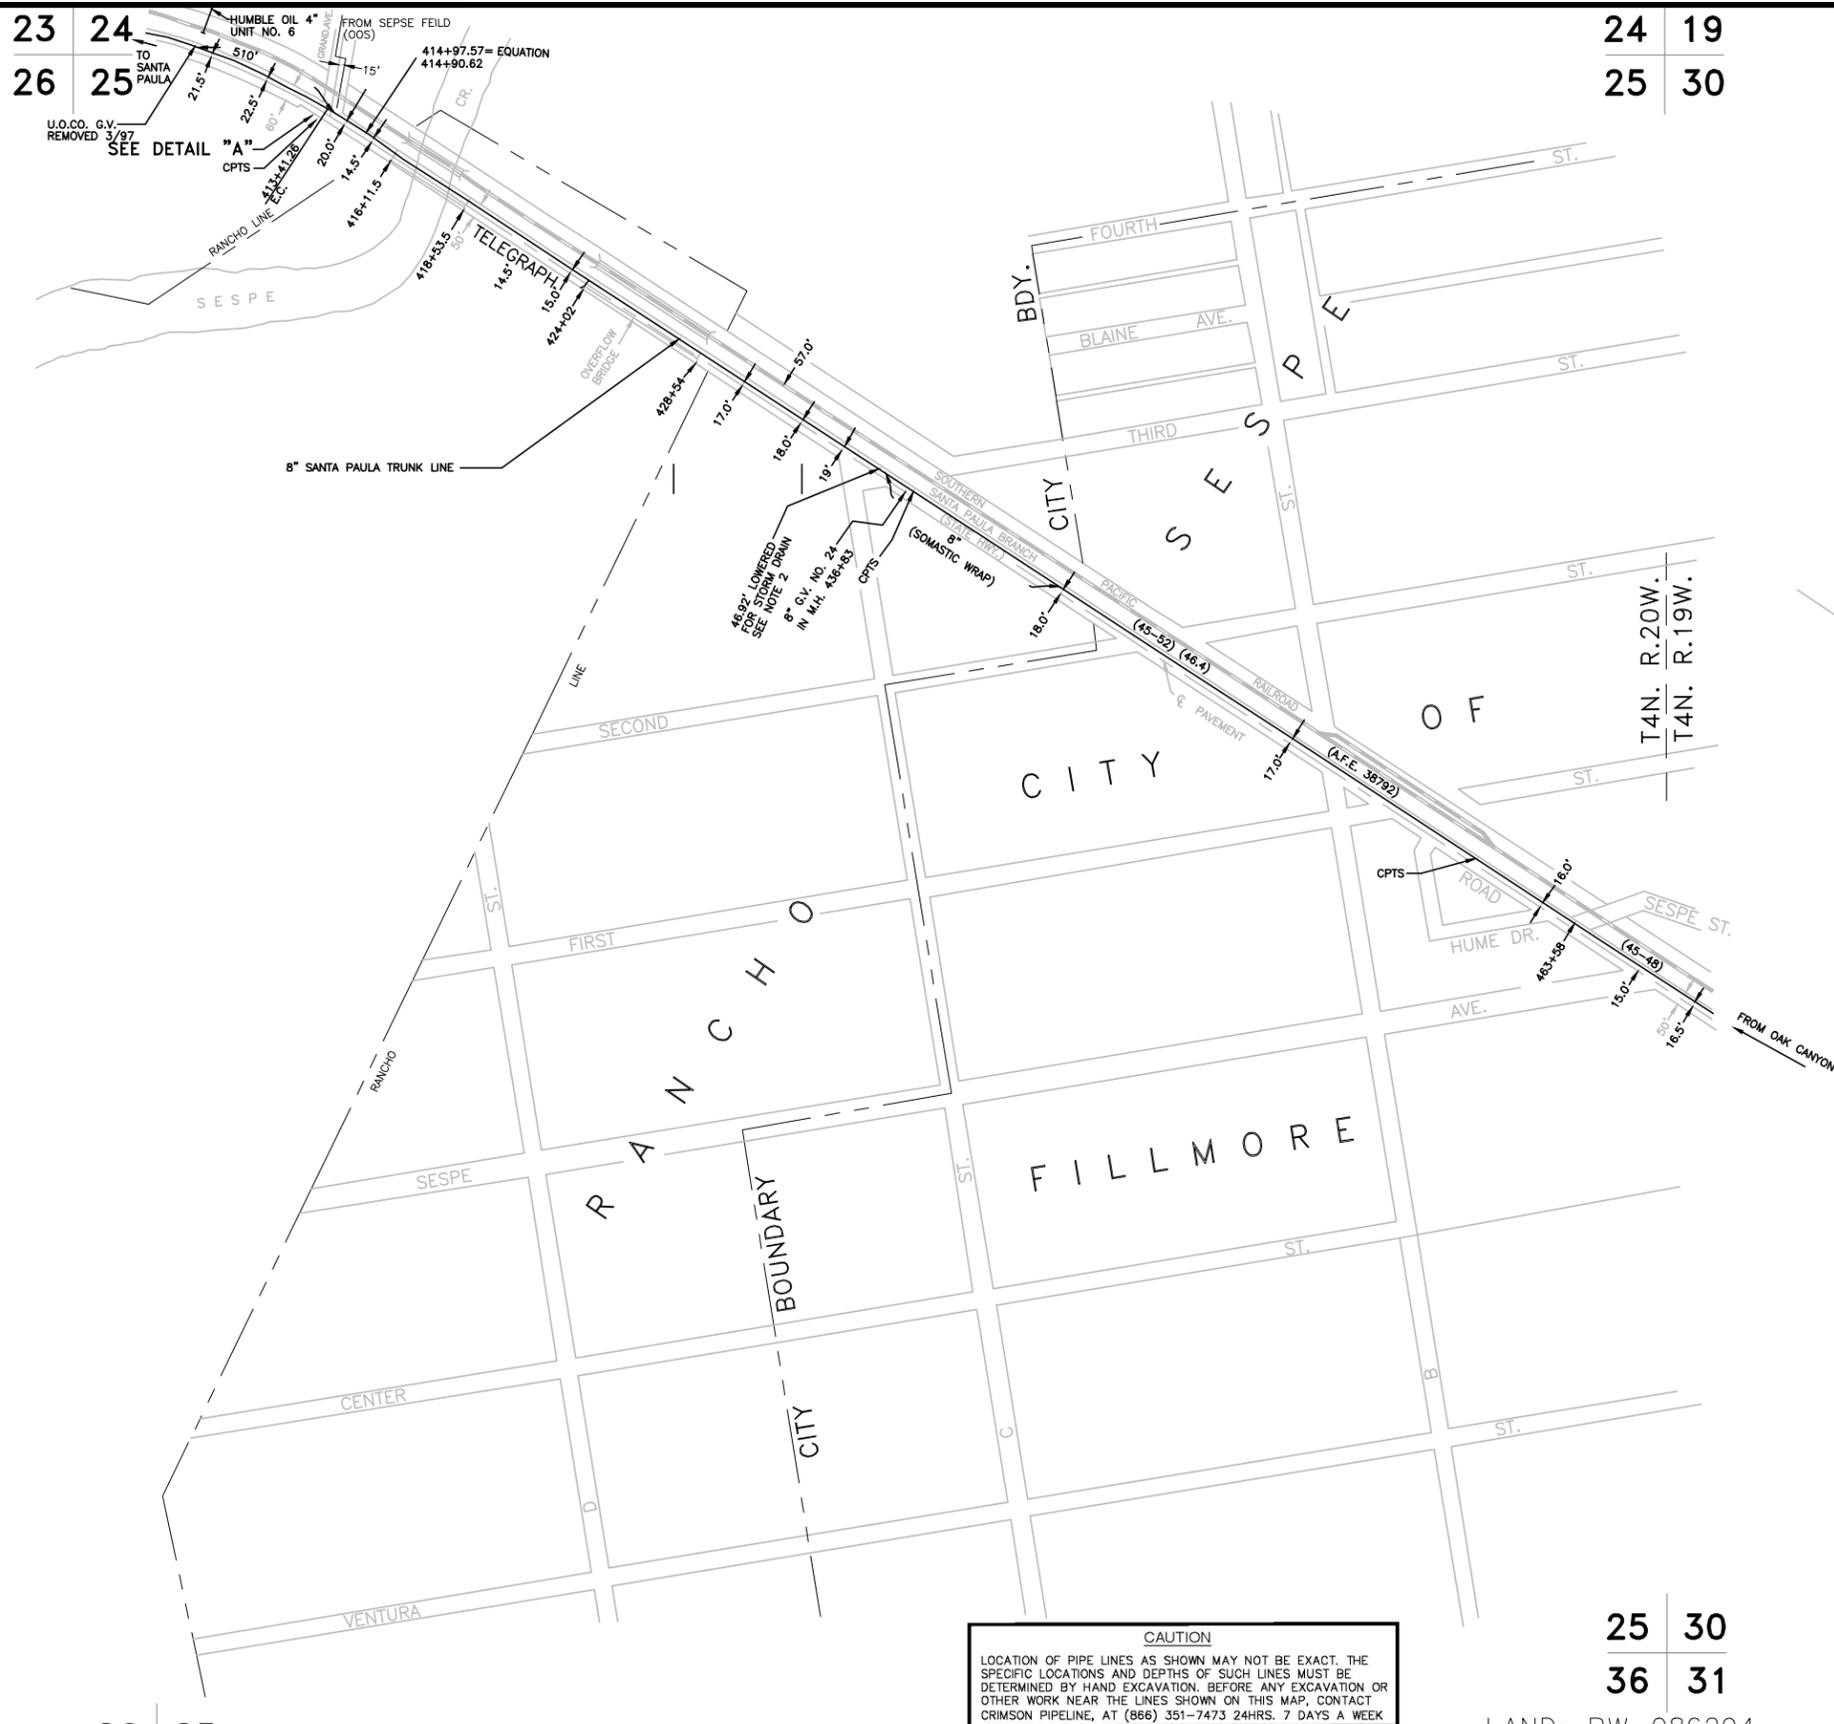

Please be advised that any and all facilities identified as "Active", "Idle", or "Abandoned", unless otherwise clearly specified, remain the property of Crimson, and that all activities affecting these facilities must be approved and controlled by Crimson. Should it be determined that said facility potentially interferes with your project this office must be notified immediately, at which time Crimson personnel will review the issues to determine what actions will be necessary to identify and resolve any conflicts.

If you have questions or require additional information regarding this submittal, please contact Cordelia Cisneros at 562-285-4133.

Sincerely,

A handwritten signature in blue ink that reads 'Cordelia Cisneros'.

Hi Bryan,

Thank you for providing me this map. Would it be possible to receive a map that extends north of the red box? I included a markup of what we may need.

Thank you,

Alfred Manuel
Project Coordinator

Hi Monte Carlo,

Thank you for your response. We are not referring to the parcel that you mentioned. The area that we are referring to is the one that I marked in red. We are interested in any utilities existing or abandoned in the railroad right-of-way.

The letter that you provided would be fine. If you need any further information from us, please let us know.

Thank you,

Alfred Manuel
Project Coordinator

Hello Alfred,

Was this regarding this parcel shown below?

If it was, I sent out a non-objection letter to the emergency bridge repair in January.

Was that letter sufficient or did you need another form of document?

Thank you,

Hello,

We are reaching out to you after receiving confirmation from the Transmission Department of SoCalGas that they do not have any transmission gas facilities within the vicinity of our project. In the attached notification letter, it was mentioned that the Distribution Department of SoCalGas may maintain and operate facilities within our project area. The Document Control File number is 0593-24NC.

The project that this is referring to is the emergency bridge repair along the Ventura County railroad line in Fillmore, CA. As mentioned in the email chain below, the bridge runs over Sespe Creek and is parallel to Old Telegraph Rd, near the Grand Ave intersection. I have attached the project area boundary for your reference. We are looking to locate any utilities and confirm that no conflicts occur during construction.

When possible, can you please confirm whether your department has any facilities that may interfere with this project? Please let me know if you have any questions.

Thank you,

Alfred Manuel

Subject: FW: Emergency Bridge Repair Sespe Creek Bridge, Fillmore, CA - Utility Information Request

Hi Transmission team,

We received this request from RailPros regarding a conflict check at a washed out bridge. I checked and the nearest line is a distribution line, but I just wanted to check with your team and ask if there might be any resource I can send this to that's specifically for conflict checks prior to construction? Let me know, thank you!

Best regards,

Guadalupe D.

Subject: [EXTERNAL] Emergency Bridge Repair Sespe Creek Bridge, Fillmore, CA - Utility Information Request

Hello,

I am reaching out to you because we will be having an emergency bridge repair along the Ventura County railroad line in Fillmore, CA. The bridge runs over Sespe Creek and is parallel to Old Telegraph Rd, near the Grand Ave Intersection. We are looking to locate utilities and confirm that no conflicts occur during construction. I have attached the Utilities Information Request Letter and Project Area Boundary drawing. If you would like us to physically mail you this information, please provide me that mailing address.

If possible, please complete and return the second page of the Utilities Information Request Letter and provide us any relevant drawings via email as soon as possible.

Feel free to reach out to me, should you have any questions or concerns.

Thank you,

Alfred Manuel
